Mahindra

With new signature front grille that enhances a tough stance, contemporary static bending headlamps to light up those dark alleys on a turn and smart interiors, the New Generation Pik-Up comfortably takes both city and tough off-road tracks in its stride. The sturdy and heavy duty ladder frame chassis can carry a payload of up to 1095 kgs with a 2.5 tonnes braked towing capacity.

The 103 KW , 2.2 Litre common rail intercooled turbo diesel engine produces a peak torque of 320 Nm. With a robust design in collaboration with AVL Austria and backed by Bosch Engine Management system, the mHawk engine provides proven reliability and unrivalled fuel efficiency. The engine valve train is driven by a twin timing chain system, so no expensive belts to replace under maintenance. The 6 speed smooth shift manual gearbox with Dana Spicer axles and Eaton self-locking differential adds to the driving pleasure both on city roads and tough off-road tracks.

NEW HIGH RES TOUCH SCREEN*
The **new 7" touchscreen** control panel with inbuilt GPS navigation, fully automatic temperature control (FATC), REVERSE CAMERA, Bluetooth connectivity and provisions for USB and AUX wire
